Human Biomonitoring in Europe – science and policy for healthy citizens
September 28, 2018 in Vienna

Co-organised with the European Commission Directorate General for Research and Innovation, this conference will demonstrate how human biomonitoring activities contribute to science, policy making and citizens' awareness raising. Participants will see new results emerging from the Horizon 2020 co-financed European Human Biomonitoring Initiative ([HBM4EU](http://www.hbm4eu.eu)) and will discuss the future of HBM in Europe.

The agenda and registration modalities, information about the venue and accommodation possibilities can be found on the conference website: <http://www.hbm4eu-vienna2018.com/>

Please note that due to the size of the venue the registration will close when the maximum number of participants has been reached.
