

Bisphenols covered by EU consumer legislation due to their classification under the [Classification, Labelling and Packaging \(CLP\) Regulation \(\(EC\) No 1272/2008\)](#).

Name, CAS number and EC number	Cosmetics Regulation EU No. 1223/2009	Toy Safety Directive 2009/48/EC
4,4'-isopropylidenediphenol CAS: 80-05-7 EC: 201-245-8	Listed under Annex II	Y Appendix C

Overview of the relevant individual pieces of professional and consumer legislation

Cosmetics Regulation

[Regulation \(EC\) No 1223/2009 on cosmetic products](#)

This Regulation lays out the rules that cosmetic products must comply with if they are to be made available on the market. The Cosmetic Products Regulation does not have to comply with the requirements of CLP, packaging and labelling requirements are instead outlined in the Cosmetic Products Regulation. Article 15 is the only area that has a link to CLP. This outlines the prohibition of CMRs in cosmetic products. Annex II lists the substances that are prohibited for use in cosmetics, these are not necessarily CMRs.

Toy Safety Directive

[Directive 2009/48/EC on the safety of toys](#)

This Directive lays down the requirements for the safety of toys (for children under the age of 14) and the free movement of these products in the Community. Additional rules have been introduced for toys made for children under the age of 36 months or those which are intended for use in the mouth, in relation to specific concentration limits for bisphenol A, TCEP, TCPP, TDCP. Obligations are outlined for manufacturers, importers, authorised representatives and distributors. Toys must conform to the essential safety requirements, including those for physical and mechanical properties, flammability, electrical properties, hygiene, radioactivity and chemical properties. Rules for chemical properties include 55 allergenic substances that are prohibited in toys, allergenic substances that require labelling, and migration limits for other substances which may not be exceeded. Substances that are classified as CMR 1A, 1B or 2 are prohibited for use in toys, although derogations do exist. The REACH Regulation also plays a part in the regulation of substances in toys, with restrictions existing for certain substances for use in toys. Appendix C sets specific limit values for chemicals used in toys intended for use by children under 36 months or in other toys intended to be placed in the mouth adopted in accordance with Article 46(2).

[Commission Directive 2014/81/EU of 23 June 2014 amending Appendix C of Annex II to Directive 2009/48/EC of the European Parliament and of the Council on the safety of toys, as regards bisphenol](#)

Sets a limit value for bisphenol A used in toys intended for use by children under 36 months or in other toys intended to be placed in the mouth of 0,1 mg/l (migration limit) in accordance with the methods laid down in EN 71-10:2005 and EN 71-11:2005.
