

Details and links to documentation associated with the most recent activities in relation to the PACT list and the Community Rolling Action Plan for bisphenols

CORAP - the Community rolling action plan (CoRAP) lists substances that have been or will be evaluated for inclusion on the Candidate list as Substances of very high concern (SVHC).

Pact list – the Public Activities Coordination Tool (PACT) lists the substances for which a risk management option analysis (RMOA) or an informal hazard assessment for PBT/vPvB (persistent, bioaccumulative and toxic/very persistent and very bioaccumulative) properties or endocrine disruptor properties is either under development or has been completed.
